Problem Statements

PROBLEM STATEMENT

PROBLEM STATEMENT

Build a Minimum Viable Product (MVP) that leverages the XRP Ledger's (XRPL) core features to solve a real-world problem. We are seeking innovative solutions with a variety of use-cases.

Areas of Interest

If you don't know where to start, we are especially interested in applications around:

- Payments
- Real-World Asset (RWA) tokenization
- RLUSD integration
- Decentralized identity (DID)
